

IMPORTANT SAFEGUARDS

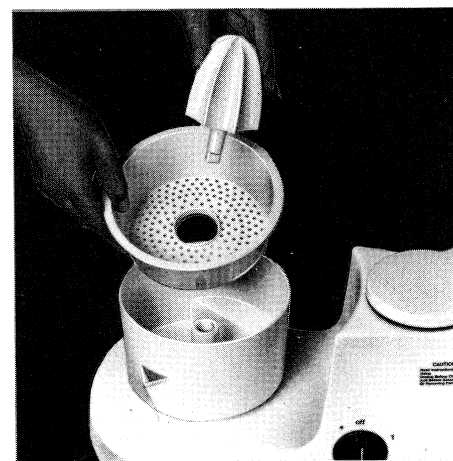

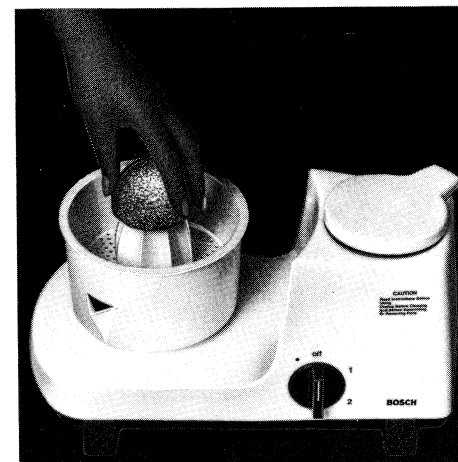

FOR CITRUS SUICER

In addition to the GENERAL SAFEGUARDS in the front of this book, the following SAFEGUARDS should be followed:

1. Read all instructions.

SAVE THESE INSTRUCTIONS

CITRUS SQUEEZER

The citrus squeezer for quick squeezing of lemons, oranges and grapefruit, consists of the collecting bowl, the strainer and the press insert.

The collecting bowl is placed on the bowl, i.e., with a slight counterclockwise movement. Then the strainer is placed in loosely and finally the press insert is pushed in. Switch on **Speed 1 or 2** and hold the fruit in the normal way, but do not press it too hard; thus obtaining the clearest juice.

Cleaning

Rinsing in cold or warm water is sufficient. The parts should not be left in hot water.
